Objective:

Highly motivated and skilled QA Engineer with five years of experience, seeking to leverage expertise in manual testing, bug tracking, and collaboration to contribute to the success of Holy Grail Games. Adept at crafting test cases, identifying bugs, and collaborating with cross-functional teams to ensure product quality and customer satisfaction.

Professional Experience:

QA Engineer
Holy Grail Games
December 2020 - Present

- Conducted comprehensive manual testing across multiple platforms and environments, ensuring the functionality, usability, and performance of web-based applications.**
- Crafted detailed test cases based on project requirements and user stories, utilizing tools such as Jira and Qase for test case management.**
- Logged and tracked bugs using Jira, providing clear and concise documentation to facilitate resolution by development teams.**
- Collaborated closely with developers and other team members to troubleshoot issues, prioritize bug fixes, and ensure alignment with project goals and timelines.**
- Participated in daily stand-up meetings, sprint planning sessions, and retrospective meetings to review progress, identify challenges, and plan next steps.**
- Completed an Automation QA course to enhance skills in test automation, API testing, and programming languages such as Java and Python.**
